# WE RECYCLE A WIDE RANGE OF PLASTIC MATERIALS, INCLUDING PP, HDPE, LDPE, LLDPE, ABS, HIPS, PET, PS, NYLON, AND MANY MORE.

We primarily source these materials from both industrial and consumer sectors. They are received in various forms such as article waste, lumps, regrades, agglomerates, rolls, sheets, and bales. These materials are then processed and converted into high-quality granules.

## → Polypropylene (PP)

- We have all types of polypropylene materials available in various colors.
- PP is widely used in automobile industries and household products.

## → HDPE Injection Moulding (HDPE)

- All grades and colors available.
- Regrind (next to virgin) can be directly used for moulding household products.

## → HDPE Blow Grades & PET Bottles

- Recycled granules available in all colors, used for pipes and drums.
- All collected PET bottles are segregated and baled at our facility; these bales are sent to polyester companies for recycling.

## → HIPS & PS

- We supply plant waste HIPS/PS virgin off-grade loose material.
- EPS off-grade material.
- HIPS material for sheets and household products.

## → NYLON

- All grades and colors available.
- Glass-filled 15%, 25%, 30% in black and natural.
- Nylon 6 and Nylon 66 are available.

### In House Testing Lab

- ✓ Melt Flow Index (MFI)
- ✓ Tensile/Impact Strength
- ✓ Ash Content
- ✓ Moisture Content

# EXTENDED PRODUCER RESPONSIBILITY

- Extended Producer Responsibility (EPR) refers to the obligation of producers to ensure proper management and disposal of their products once they reach the end of their life cycle. Our primary goal is to establish a reliable and efficient system for the collection, segregation, and transportation of materials to authorized waste disposal facilities approved by the SPCB and CPCB. Depending on their quality and market value, these materials are further utilized in cement kilns, pyrolysis plants, road construction, and recycling centers.

## HOW WE OPERATE UNDER EPR:

# Our Services

- 1 Industrial Waste Management Solutions
- 2 Manufacturer: Recycled Plastic Granules
- 3 EPR Services – Collection, Logistics & Recycling
- 4 Reconditioning of Hazardous Industrial Barrels
- 5 Waste Collection Drives & Awareness Programs on Plastic Waste
- 6 Liaising at CPCB/SPCB for Brand Owners & Producers
- 7 Post-consumer Waste Management Solutions
- 8 Electronic Waste, Hazardous Waste, Plastic Waste & More
- 9 Eco-friendly and Sustainable Products from Plastic Waste

## Our Group Of Companies

Rexaw Recycling Pvt. Ltd.

Gujarat Waste Management

Sabari Trading Company

Uttarakhand Waste Management

UT Waste Management
